**PAUL F. ADAMSON, MAYOR**

## **UPDATE**

### **UPDATE ON PUBLIC MEETINGS REGARDING SANITARY SEWERS**

Certain delays have occurred in the preparations for the public information sessions to be conducted in New Franklin by the Summit County Sanitary Sewer Department. As a result, those meetings will not begin in late January as previously indicated.

We are continuing to meet with Summit County, and we expect they will provide a schedule in the near future. As a reminder, these information sessions will be the first steps by the County in advising the public and beginning to measure support for the project. No action whatsoever will follow until the information sessions are held and the residents in the areas where the sewers are being proposed get an opportunity to have their questions answered and express their opinions.

As always, further questions can be directed to our offices, or directly to Summit County Sanitary Service (DSSS), attention: Mathew Calcei at (330) 926-2416 or by email at [mcalcei@summitoh.net](mailto:mcalcei@summitoh.net).

Paul Adamson, Mayor
